Copenhagen is a popular meeting city, and since 1995 it has been on the Union of International Associations' top ten list of preferred cities for International conventions. In Copenhagen, we have many years of experience in hosting all kinds of meetings – and at Wonderful Copenhagen CVB, we are skilled in supplying free assistance and guidance to convention organisers, as well as to meeting and incentive customers. Getting to Copenhagen is easy from anywhere in the world. The downtown area contains a large concentration of hotels, meeting facilities, restaurants, cultural attractions and entertainment venues, and even meeting facilities located outside the city centre are easy to get to, thanks to Copenhagen's short distances and excellent infrastructure. Copenhagen is easy to get to – but hard to leave behind.
